Dear Mr. Hagen:

Re: Civil Penalty Projects

Enclosed is a one page description of a proposed project for reclamation. This site was investigated by the AMR staff for reclamation at our Director's request.

The Boyer Mine poses hazards to the public's health and safety through its open portals, hazardous equipment, and high boron content coal pile. This site has been mined since 1977 and appears to have insufficient funds for reclamation.

Please consider this site for funding under the civil penalty projects program. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Mary Ann Wright".
