DIVISION OF  
OIL, GAS & MINING

Dear Lowell,

Well the months continue to move along and I hear nothing from you folks in regards to either mine. I submitted a proposal on the Black Hawk, and have not had a reply to either end. I have talked with the Attorney Generals office and found no help. Ever wonder what it's like to be on my side of the fence. Got a demand letter again for the fourth year from Summit County demanding that we spray for Musk Thistle on both sites or they will do it and add the cost to our taxes. So again for the fourth time I will pay the bill and receive nothing in return. I am getting down about the whole affair.

Yes, I realize that the system moves at a snails pace and I need to be patient, but it is hard. I really need to visit with you folks again, I feel and discuss the financial aspect of this matter. I would very much appreciate having the Attorney Generals office represented in that meeting so see where the proposal stands at this time and again to followup on reclamation. Lowell, I am not attacking you or anyone personally in this, just pleading for help. I will be out of town for the next 10 days, and after that would appreciate a meeting, perhaps during the first part of May. Let me know what you are able to schedule. I appreciate your support.
