Dear Mr. Graham:

Re: Extension of Exploration Project, Boyer Mine, INA/043/008, Folder #3, Summit County, Utah

The Division has reviewed your request for extension of the Boyer Mine exploration project dated July 19, 1991. The Division hereby extends the time for completing the exploration project to August 9, 1991 conditioned upon our receipt of the MSHA approval referred to in your letter.

At this time you are authorized to install equipment necessary to ventilate the mine in order to enter and conduct reconnaissance through the farthest east portal, in accordance with MSHA procedures. Upon completion of your project, portal closure must be accomplished as per the specifications previously submitted to you. This must also be done by the August 9th date.

No other work is authorized at the Boyer site. Please keep us informed as to your schedule with respect to this project.

If you have any questions, please feel free to call Daron Haddock, Permit Supervisor, at 538-5340.

Sincerely,

A handwritten signature in cursive script that reads "Lowell P. Braxton".
