Dear Mr. Graham:

Re: Approval, Exploration Project, Boyer Mine, CEP/043/008-91A,
Folder #3, Summit County, Utah

Your request for a minor exploration permit submitted on June 20, 1991, has been reviewed by Daron Haddock and Randy Harden of the Division's technical staff. Division Correspondance dated June 27, 1991 required you to supply additional items to the Division. These items included: 1) certified funds in the amount of \$2000.00, 2) written right-of-entry from the land owner, 3) MSHA approval, and 4) a waiver of liability. These items were submitted on July 3, 1991.

The Division hereby approves your minor coal exploration project. Please bear in mind that the center portal is the only portal approved for excavation. No other excavation or disturbance at the site will be allowed. It is the Division's understanding that the portal is planned to be backfilled within a few hours. At a minimum the Portal must be resealed within two weeks of it being opened. Upon satisfying the requirements of portal sealing your funds will be returned.

Thank you for your cooperation in completing this matter. Please notify the Division upon completion of this project. If you have any questions, please feel free to call.

Sincerely,

Lowell P. Braxton
Associate Director
