The reclamation bond for this mine was forfeited on October 20, 1995 and the mine was reclaimed as of November 20, 1997. Since the Boyer Mine is considered an abandoned site, the Division of Oil, Gas and Mining proposes in lieu of the inspection frequency established in R645-400-130, that inspections be set at a frequency commensurate with the public health and safety and environmental considerations present, but in no case shall the inspection frequency be set at less than one complete inspection per calendar year. This site was last inspected on January 22, 2003, and no threats to public or the environment were noted.

Boyer Mine is located on:
Fee Land
T3N R6E SLB&M,
Utah
Sec. 25: S1/2S1/2
Sec 36: North of the County Right of Way and a strip of land between the County highway and south of Chalk Creek running 800 feet west from the east side.

If you have any comments about the proposed reduction in the frequency of inspections for this mine, please send written comments within 30 days of:
